

DIRECTIONS:

- Colouring/Bleaching: At the end, after washing the hair and removing the entire dye/bleach, remove the excess water from the strands with the aid of a dryer or towel, Spray **20 in 1** thoroughly through the entire hair, leave for 3 minutes and rinse the excess. Apply a small amount of **Leave-in Floractive** of your choice and finish as desired.
- Straightening:
 1. Before the beginning of the procedure, for an already damaged hair (rubberised/elastic/brittle/fragile...), you can add 2-3 sprays of **20 in 1** at the bowl that contains the **Nanoplasty Floractive** product of your choice and mix well both products. Then, continue the procedure as usual.
 2. At the end, after flat ironing the entire hair, in the washbasin, wash the entire hair using the **Floractive Shampoo** of your choice. After removing the excess water from the strands with the aid of a dryer or towel, Spray **20 in 1** thoroughly through the entire hair, leave for 3 minutes and rinse the excess. Apply a small amount of **Leave-in Floractive** of your choice and finish as desired.
- Brushing, and Hydration: Before the beginning of the procedure, with the hair slightly humid, Spray **20 in 1** thoroughly through the entire hair and continue with the procedure as usual.

SIZES & EFFICIENCY
300mL = 450 sprays
